

SVZ-USA

Fruit & Vegetable Portfolio

In the mid 1990's SVZ Industrial Products B.V. branched out to North America and established a manufacturing facility in Othello, Washington. This proved to be an excellent choice: close to high quality raw materials, complete support infrastructure, and good proximity to the International Seaport of Seattle.

Since then, SVZ-USA, Inc. has made its mark as an innovative supplier of local fruit and vegetable ingredients while simultaneously providing an important manufacturing link between North America, Europe and Asia. SVZ-USA procures and manufactures a wide variety of high quality conventional and organic fruit and vegetable ingredients packed frozen or aseptically into the following formats:

Concentrated juices
Purees

Puree concentrates
Aromas
