

# SVZ-USA

## Aromas

Located in the abundant agricultural center of the Columbia Basin, we manufacture a wide variety of high quality all natural fruit and vegetable ingredients, both conventional and organic.

To service the growing health, wellness and 100% natural market trends, SVZ-USA has developed an extensive range of natural aromas "From the Named Food" (FTNF). Proprietary technology employed very early in the industrial process allows us to capture the valuable flavor volatiles before they are harmed by temperature or evaporation processing steps. Our optimized extraction process, quality parameters and blending techniques create a concentrated cocktail of fresh flavor volatiles that will optimize the natural flavor profile of your products – sweet or savory.

Blackberry  
Blueberry  
Cranberry  
Marionberry  
Raspberry,  
black  
Raspberry, red  
Strawberry

Apple  
Apricot  
Cherry, sour  
Cherry, Sweet  
Peach, white  
Peach, yellow  
Pear

Banana  
Kiwi  
Mango

Pumpkin  
Spinach  
Sweet Potato

Apple  
Peach, yellow

### Highlights:

- ✓ 100% natural and FTNF classified – nothing added
- ✓ Our aromas may be used as high quality cost effective raw materials for further flavor concentration or fractionation
- ✓ May be used to enhance or round out flavor notes of finished product applications i.e. beverages and confectionery
- ✓ Only SVZ approved fruits and vegetables are used
- ✓ All SVZ products are Kosher, allergen and GMO – free and in full compliance or exceeding HACCP and FDA regulations

Please contact our sales team for further information, we will be happy to advise you of the many possibilities and most recent developments.
