COVID-19 Statement

With the information that we received from the ECDC (European Centre for Disease Prevention and Control) we, SVZ International BV, do not foresee any problems with our products regarding the coronavirus, COVID-19. Since the situation around the novel coronavirus began to develop earlier this year, SVZ has put strong measures in place to help prevent the spread of the virus and protect the health of our people, while ensuring business continuity.

As of this day no report of transmission of the COVID-19 via food or food packaging has been made. Transmission of the COVID-19 is done by animal-animal, animal-human or human-human. There is no evidence that food products pose a risk to the health of our customers.

The World Health Organisation (WHO) advises that standard recommendations to reduce exposure to and transmission of a range of illnesses are maintained. These were already implemented in the good hygiene practices at our factories and include:

- o Proper hand hygiene practices
- o Cough/cold hygiene practices
- o Close contact practices, avoid when possible anyone showing symptoms of respiratory illness such as coughing and sneezing etc.
- o Safe food practices

We will follow the situation closely and inform you accordingly when needed.

If you need further guidance or advice, please refer to our website: www.svz.com or reach out to your SVZ contact.

On behalf of SVZ International B.V.

P.T.

Ronald Domes
