2.1 These General Conditions apply to all Contracts. Once the General Conditions have been declared applicable, they shall also apply, without further notice, to new Contracts entered into between the parties.

2.2 The applicability of any other general (sales and/or supply) conditions is hereby expressly excluded.

2.3 Should one or more of the provisions of these General Conditions be in conflict with one or more provisions of the Contract, the provisions of the Contract shall prevail.

2.4 In the event that one or more provisions of the Contract and/or these General Conditions should be found to be wholly or partly non-binding, then the remainder of the Contract and these General Conditions shall remain in force. The Principal reserves the right to replace the non-binding provisions with provisions that are binding, and which differ as little as possible - taking into account the object and purport of the non-binding provision - from the provision being replaced.

2.5 The Supplier shall not subcontract (the performance of) a Contract to third parties or assign a Contract in whole or in part to third parties without prior written consent from the Principal. This prohibition has property-law effect.

Clause 3. Contract

3.1 Every offer, invitation, quotation and/or inquiry made by the Supplier is irrevocable and unconditional.

3.2 The Supplier declares that all information provided by it, including but not limited to brochure(s), SAAS checklist and manual(s), is complete and adequate.

3.3 The Supplier is bound by the Contract only when and in so far that it has been accepted by the Principal in writing.

3.4 Amendments, which also include more and/or less work, can only be agreed in advance in writing.

3.5 Where Products are supplied by the Supplier to the Principal that have not been previously supplied to the Principal, including Products that diverge from previously delivered Products either in composition or in any other way, the Supplier shall, where appropriate, prior to the entering into of the Contract, provide the Principal with all relevant written information with regard to the safety, health, environment and other (product) information, user directions and instructions free of charge.

3.6 The Supplier expressly waives the right to suspend performance and the right to settlement. The Supplier waives its right to dissolve or annul a Contract, both in or out of court.

Clause 4. Prices and invoicing

4.1 Prices mentioned in the Contract are exclusive of VAT but inclusive of all costs and allowances and – if applicable – excise, duties and levies.

4.2 The Supplier's prices cannot be increased, irrespective of the circumstances, unless the parties expressly agree otherwise in writing.

4.3 Invoicing takes place after Delivery. Payment of undisputed invoices takes place no later than within 60 days after the receipt of the invoice or as much shorter as required by applicable mandatory law. Payment does not discharge the Supplier from any guarantee and/or liability.

4.4 The Principal (as well as each of the Principal's (indirect) subsidiaries and/or (indirect) companies within the group) has the right to settle claims it has against the Supplier with claims the Supplier has against the Principal (as well as each of the Principal's (indirect) subsidiary and/or (indirect) companies within the group).

4.5 In the event that the Supplier calculates a lower price and/or more favourable conditions for the Principal's (indirect) subsidiary and/or (indirect) company within the group, then this lower price and/or more favourable conditions shall apply automatically to all the Principal's (indirect) subsidiaries and/or (indirect) companies within the group.

4.6 Assignment

- a) Any assignment of the Supplier's claims or receivables shall require the Principal's prior written consent.
- b) Notwithstanding paragraph 1 above, the Supplier grants to a third party nominated by the Principal (the "Nominee") an option to acquire the Supplier's receivable against the Principal by payment of the full invoiced amount (the "Purchase Price") at any time during the payment term of the relevant receivable.
- c) The Nominee may exercise such option by payment of the full Purchase Price. Upon full payment of the Purchase Price by the Nominee, the Supplier hereby assigns the respective receivable to the Nominee with effect simultaneously upon such payment (subject to the condition precedent of full payment of the Purchase Price).
- d) The Supplier irrevocably consents to such assignment in advance. No further consent or action by the Supplier shall be required for the assignment to become effective.

Clause 5. Delivery and performance

- 5.1 Deliveries take place DDP (at the Principal's address) Incoterms® 2020 during the Principal's normal hours of business and in conformity with the Principal's (further) instructions.
- 5.2 The Supplier undertakes responsibility for obtaining all consents, permits and other documentation necessary for the Products and Delivery, and holds harmless and indemnifies the Principal accordingly.
- 5.3 On a date to be determined by the Principal, the Supplier must submit to the Principal for its approval, a time scheme that sets out production, assembly and readiness for use of the Products, and shall regularly report in writing on progress made.
- 5.4 In the event that the Products are part of a larger unity, the Supplier is obliged to take care of the Products and shall provide all assistance necessary to ensure that the Supplier's production fits other components and functions properly with third party products, without incurring any extra costs for the Principal.
- 5.5 The Supplier will, no later than the moment of Delivery, provide the Principal with the legally required, relevant and applicable documents, including but not limited to drawings, descriptions and calculations, or so much earlier as requested by the Principal or when the Supplier is legally obliged to provide this to the Principal earlier.
- 5.6 The Supplier will provide the Principal as soon as possible, but no later than three (3) months after Delivery all as-built drawings, as described in the Contract. In the event of situations which are subject to a safety risk, commissioning depends on as-built drawings and/or other documentation or at the first reasonable request from the Principal, the relevant documentations, including but not limited to (intermediate and final) as-built drawings, will be immediately adapted by the Supplier and provided to the Principal.
- 5.7 The agreed delivery time ("delivery time") is of the essence and is a firm date.
- 5.8 The Supplier must immediately inform the Principal in writing of any likelihood that the delivery time may be exceeded, stating the reasons for this and giving the expected delivery time, without prejudice to any rights the Principal may have as a result of the delivery time being exceeded.
- 5.9 The Principal retains the right at all times to postpone the Delivery. In such a case the Supplier shall, at its own cost and risk, keep the Products properly packed and conserved, stored separately from other goods and identifiable.
- 5.10 In the event that the Products relate to the implementation and/or completion of a work, then installation and (dis)assembly are included in Delivery and performance. Once a work has been completed and is ready for use, it will be surveyed and the Principal shall draw up an inspection report. The Principal can only accept a work expressly in writing.

Clause 6. Quality and guarantees

- 6.1 The Supplier guarantees that the Products conform fully with the Contract and the specifications contained therein, that the Products shall be of good quality and shall comply with all applicable national as well as international sector requirements, legislation, regulations and other governmental directions and that he will perform the Contract.

- 6.4 Supplier guarantees free and undisturbed use of the Delivery by Principal. In the event of an alleged infringement of third parties' intellectual property rights Supplier shall take on its own account all measures that may contribute

to preventing stagnation of the Principal's operations and to reducing any costs to be incurred and/or damage to be suffered by the Principal as a result hereof.

6.5 This clause also applies to replaced or repaired parts, goods and/or work provided by the Supplier.

6.6 The Supplier, as well as the Employees deployed by it, shall observe all legal safety, health, environmental and similar regulations, as well as any conditions and orders that may be specified by the Principal, for which the Supplier is responsible.

The Supplier shall, as soon as the Principal so requests and free of charge, remove the packing material and shall bear responsibility, in that case, for its destruction or recycling and for all associated costs.

8.3 The Supplier guarantees that the conveyance used for the transport of the Products will be cleaned thoroughly in order to prevent pollution/contamination and/or loss in quality of Products.

8.4 Cleaning means that at least all national, international and supranational legislation, regulations and other governmental directions with regard to cleaning of conveyance are complied with. The purpose of the Products – and with due observance of the enterprise(s) of the Principal – brings along that the cleaning needs to be exercised with a larger care than the aforementioned legislation, regulations and directions.

Clause 9. Inspections

9.1 The Principal retains the right at all times during manufacture, production, storage and/or transportation to inspect, or to have the Products inspected, regardless of where that may be. Amendments and/or improvements deemed necessary by a relevant government authority shall be carried out by the Supplier at its own cost prior to Delivery.

9.4 The Principal shall inform the Supplier that it has rejected the Products within a reasonable period of time.

9.5 Inspections and their results can never be construed as acceptance on the part of the Principal of the quality of the Products or compliance with the Contract, and do not exempt the Supplier from any responsibility or liability in that respect.

Clause 10. Termination

10.1 The Principal retains the right to terminate the Contract in whole or in part without notice of default and without legal intervention, without such termination resulting in any liability on the part of the Principal for costs and/or damages and without prejudice to the Principal's right to damages:

- b. in the event that the Principal rejects the Products in whole or in part;
- c. in the event of (application /request for) suspension of payments or bankruptcy on the part of the Supplier, attachment on (part of) the Supplier's business property or goods, strikes or liquidation of, or transfer of the legal and/or actual control of its business, or withdrawal of any licenses;

The Supplier shall hold these resources as a loan for use, by the Supplier clearly indicating that they are the Principal's property, and shall keep them in good condition and shall bear all the risks, until said resources have been returned to the Principal. The Supplier shall use the resources solely for the performance of the Contract. The Supplier acquires no right at all in respect of the Principal's resources.
- 12.2 The Principal is not liable for any damage suffered by the Supplier or third parties, unless the damage is the direct result of wilful intent or gross negligence on the part of the Principal or its management.
- 12.3 In no event is the Principal liable for indirect damages, such to include damages that are not the direct result of an attributable shortcoming, loss of goodwill, losses due to stagnation of business operations, reputation damage, loss of profits and turnover, missed savings, costs of a recall, compensation (for damages) (including fines) owed to third parties and delay losses.
